INSTRUCTIONS FOR INFORMATION RELEASE REQUEST SIGNATORIES

This list provides the instructions for each reviewer. It is meant to be used as a checklist and require no signatures. The list is not all-inclusive but covers the key areas needing review. Areas needing further review or other areas needing review should be indicated under comments.

AUTHOR/REVISER

- Project or program manager agrees with the issuance of this report.
- Reference citations are necessary, correct and appropriate for the intended audience and will be publicly available at the time the document is published.
- If a journal article, the reference style agrees with guidance from the client or journal publisher.
- Contributions from authors of other organizations indicated in the comment section of this form.
- Document is responsive to the client's scope of work.
- Client approved this for release.
- Document reports or reflects quality technical work.
- Scientific methodology used is logical and reasonable.
- Inferences and conclusions are soundly based.

RESPONSIBLE REVIEWER

Indicate at the bottom of the comment section of this form that General Counsel's office should review this document with particular attention to:

- An invention (reported or unreported)
- New software developed at WNC
- Sensitive subject matter (politics, liaison, security)
- Copyrighted information
- Trademark information
- Proprietary information.

If the heading for the program represented by the document is from the Assistant Secretary for Nuclear Energy (NE), and public disclosure or limited disclosure for foreign exchange (declassification) is requested, the following information is required:

- Information generation date
- Prior dissemination to DOE contractors
- Prior dissemination under international agreements
- Substantive value for international exchange
- Justification for release of information.

AUTHORIZING DERIVATIVE CLASSIFIER

Document reviewed for (and indicated on the front of the form) the presence of the following:

- Classified information
- Unclassified Controlled Nuclear Information (UCNI)

GENERAL COUNSEL REVIEWER

Document reviewed for (and indicated on the front of the form) the presence of the following:

- Previously reported or as yet unreported patentable subject matter
- Copyright material
- Trademarks
- Proprietary information
- Product comparisons
- Inventions
- New software developments
- Information meets environmental compliance.

COMMUNICATIONS GOVERNMENT REVIEWER

- This document contains no unresolved company policy issues.
- WNC logo/typo is used correctly.

NE AND DEPARTMENTAL REVIEWER

Document reviewed for (and indicated on the front of the form) the presence of the following:

- Applied Technology Information
- Litigation Structure Information (foreign exchange)
- Distribution list discussed with the client
- Others who should review this document before release indicated in the comment section of this form.

PUBLICATIONS SERVICES REVIEWER

- Structure and format of the document are appropriate for the subject matter and comply with company standards.
- Descriptive legends, markings, and notices are affixed as appropriate.
- Required elements are included, such as disclaimer, cover, distribution list, approvals, etc.

INFORMATION RELEASE ADMINISTRATOR

- All reviews are complete and this publication or presentation is approved for release (after resolution of mandatory comments).

SUPPORTING DOCUMENT		1. Total Pages 5962
2. Title Single Shell Waste Characterization Tank B-202 Data Package	3. Number WNC-SD-WM-DR-034	4. Rev No. 0
5. Key Words Single shell tank, Waste characterization, Tank B-202, Data package, 241-T-104, Sample, Core 24, Core 25, Waste management	6. Author Name: John G. Kristofzski <i>John G. Kristofzski</i> Signature 3/4/93	
7. APPROVED FOR PUBLIC RELEASE <i>APR/93</i>		
8. PURPOSE AND USE OF DOCUMENT - This document was prepared by law within the U.S. Department of Energy and its contractors. It is to be used only to perform, direct, or integrate work under U.S. Department of Energy contracts. This document is not approved for public release until reviewed.		
<p>PATENT STATUS This document copy, since it was transmitted in advance of patent issuance, is made available with confidence solely for use in performance of work under contracts with the U.S. Department of Energy. This document is not to be published nor its contents otherwise disseminated or used for purposes other than specified above before patent approval. For such release or use has been granted, upon request, from the Patent Counsel, U.S. Department of Energy Field Office, Alameda, CA.</p> <p>Legends removed by WNC legal group</p> <p>DISCLAIMER This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, nor any of their contractors, subcontractors or their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof or its contractors or subcontractors. The views and opinions of authors mentioned herein do not necessarily state or reflect those of the United States Government or any agency thereof.</p>
